

HIRERIGHT & iCIMS PRIME INTEGRATION WORKFLOW

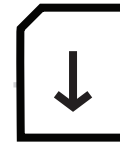

Recruiter identifies
candidate

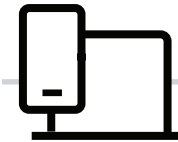

Recruiter initiates
background check in
iCIMS Prime

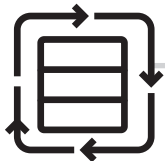

iCIMS transfers
request and candidate
data to HireRight

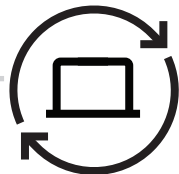

HireRight sends invite to
candidate to provide authorization
review the information and
complete missing information

HireRight processes
request based on client
requirements

Status is posted back to
iCIMS so recruiter may
review progress of
background check

A 'view details' button
with access to the
background check
results is posted to iCIMS
